

SUPPORTING THE AG INDUSTRY FROM THE FACTORY TO THE FIELD.

CUSTOM WASHERS

PMW works with OEMs to build custom-designed aqueous parts cleaning systems for the factory floor. We have the experience and resources to design and build a cleaning system to match your requirements precisely including pass-thru, top-load, belt conveyor, and more. Each washer is customized to the unique factory footprint.

STANDARD WASHERS

PMW supplies a wide variety of standard parts washers to implement dealers in the ag industry. These washers are easy to install and provide a high quality, consistent cleaning process that allows your employees to focus on repairs.

QUALITY AND DELIVERY

PMW is well known in the industry for high quality washers with long life expectancies. Purchasing a washer from PMW is planning for the long haul. We are number one in quality and delivery.
